

AIR CURTAINS

SILVER Series

Height from 2.5 to 3.5 m

FEATURES

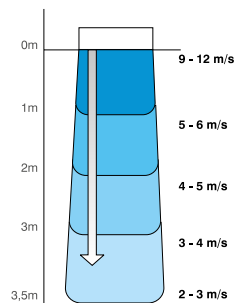

- Innovative design without visible hardware
- Aluminium and ABS.
- Remote control and control panel.
- Operation indicator

Easy to open, practical design that uses no screws on the outside deck. The stainless housing is made of high strength aluminium and high quality ABS.

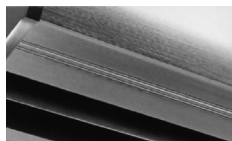

With unique guide bar design, which enables the production of air in all directions, being able to adapt to different environments.

It can be controlled by the remote control and control panel. It has a switch for high and low speed.

Provided with an optimized electric machinery, it works safely and effectively.

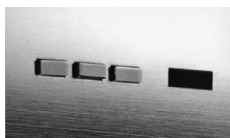

High performance, high efficiency.

Fine metal blades provide a better control of the airflow.

Integrated design with metal side cover.

Buttons with light indicator

TECHNICAL FEATURES

Model			MU-ALU 09	MU-ALU 12	MU-ALU 15	MU-ALU 18	MU-ALU 20
Code			EC 06 475	EC 06 476	EC 06 477	EC 06 478	EC 06 479
Flow rate	H (high)	m ³ /h	1,100	1,500	1,900	2,280	2,520
	L (low)	m ³ /h	900	1,200	1,500	1,800	2,100
Speeds		Nº	2	2	2	2	2
Remote control			YES	YES	YES	YES	YES
Manual control			YES	YES	YES	YES	YES
Consumption	H (high)	W	230	290	380	450	470
